

Art and design

Children will develop their skills in drawing, painting, sculpture and other art and craft techniques to enable them to produce their own pieces using a wide variety of media and techniques.

Children will be encouraged to produce creative work through which they explore their own ideas and experiences. Children's art work will be celebrated and shared through regular display within school.

Each class takes part in one Art and Design Technology day each half term where the whole day is linked to these subjects.

Children will also learn about the work of other artists and explore how their work can be inspired by this. This will link to our topic or the local area that we live in.

The links below can be accessed at home and provide art inspiration and ideas for children.

Getty Art Games

Explore famous works of art through this educational gaming platform.

Sesame Street Art

Create works of art and download free coloring pages from your friends on Sesame Street.

Art Attack Painting Studio

Create your own paintings online with this fun game!

How to Draw Characters From Children's Books

The Guardian offers lessons from artists about how to draw some of the characters they've created.

Art Projects for Kids
